# **International Conference on Innovation for Connected World and Smart Living 2016 (ICICS-2016)**

**<http://icics.ouhk.edu.hk/>**

## **Call for Papers**

**October 27-29, 2016**

**The Open University of Hong Kong  
Homantin, Hong Kong**

The rapid advancements of communication technologies, smart devices and cloud services enable innovative applications in all business sectors, including retail, homes, health care, transportation, finance, public utilities, and education. The Internet of Things (IoTs) offer advanced connectivity of devices, systems, and services that go beyond machine-to-machine communications and cover a variety of applications. Connected devices have massive potential to deliver value, and enhance our quality of life. Although the technology advancements provide new business opportunities, there remain challenges on standardization, security, and privacy, etc.

The ICICS-2016 offers an opportunity to researchers to present their designs, operating prototypes, and research results. Topics covered in the conference include, but are not limited to:

- Smart home
- Smart city and smart transportation
- Smart manufacturing
- Connected wearable technologies
- Standards, protocols, and regulations of devices
- IoT industrial deployment experiences
- Big Data and IoT analytics
- Cloud Computing for IoT applications
- Prototyping connected applications and embedded systems

### **Technical Paper Submission:**

Submit the technical papers to [icics@ouhk.edu.hk](mailto:icics@ouhk.edu.hk). Each paper must be written in English, and should be at least 4 or at most 6 pages in size. Please follow the 2-col IEEE paper style in paper format ([http://www.ieee.org/conferences\\_events/conferences/publishing/templates.html](http://www.ieee.org/conferences_events/conferences/publishing/templates.html)).
